WHEN DR. ROBACK, the celebrated V Swedish Physician, introduced his Blood Purifier and Blood Pills in the United States, he Purifier and Blood Pills in the United States, he set forth in plain language their curative properties. This was years ago. The task of recommending them has since been taken out of his bands. Enlightened men whose character for sound joigment and philosophy, gives their opinions weight in the community, men who observe, reflect, and make "assurance doubly sure" before they decide—are everywhere approving and arging the use of these wonderful preparations. All who coulde in the wisdom and honesy of this class, or who chose to investigate for themselves are now of one mind on this important subject.

MEDICAL.

Fever and Ague,

from which mankind suffer over a large part of
the globe, is the consequence of a diseased action
in the system, induced by the poisonous minsm of
vegetable decay. This exhalation is evolved by
the action of solar heat on wet soil, and rises with
the watery vapor from it. While the sun is below
the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the
lungs into the blood. There it acts as an irritating
poison on the internal viscera and excreting organs
of the body. The liver becomes torpid and fails to
secrete not only this virus, but also the bile from
the blood. Both the virus and the bile accumulate
in the circulation, and produce violent constitutional disorder. The spleen, the kidneys, and the
stomach sympathize with the liver, and become
disordered also. Finally, the instinct of our organism, as if in an attempt to expel the noxious
infusion, concentrates the whole blood of the body
in the internal exerctories to force them to cast it
out. The blood leaves the surface, and rushes to
the central organs with congestive violence. This
is the CHILL. But in this effort it fails. Then the
Fiven follows, in which the blood leaves the central organs and rushes to the surface, as if in
another effort to expel the irritating poison through
that other great exerctory—the skin. In this
also it fails, and the system abandons the atterapt
exhausted, and waits for the recovery of strength
to repeat the hopeless effort another day. These
are the fits or paroxyams of Faven and AucuSuch constitutional disorder will of course undermine the health if it is not removed.

Mr. H. B. Kingsley, Sir.—I have been selling the medicing of the Graffen-behorg Company for the last ten years, and have invariably found them to give good sa islaction; and the pills I have sold to a good many families as regularly as their tea and collee, and with my trade they become a simple article. Marshall's Uterine Catholicon is a medicine that has done a great automated to good at che that has done a great amount of good at fe-male diseases. One lady I sold it to told me she had received more benefit from one bettle then she did from a long course of medical treatment by the most skilful physicians.

us truly, JAMES WILSON. January 1st, 1858. MRS ROBINSON'S CERTIFICATE.
VIESON, Trumbull Co., May 1st, 1843.
This certifics that I have been in very-poor bealth for years, and found little or no relief after health for years, and tound little or no relief after employing a number of physicians. My disease was Prolopsis Uteri. I had been reduced by that and Flourer Albus until I had been reduced by that and Flourer Albus until I had become ulcernied to a considerable extent. By the advice of Dr. G. W. Bushnell I procured and took six bottles of Marshall's Uterize Catholicon which enabled mo to attend to my lushand in his last sickness until he died, which was about a year since. I have taken three bottles since his death, which has made me able to labor and support my family of three children. The Catholicon has nearly restored my to health. It is the only thing that has mitigated my suffering for which Mell very grateful.
